Mistra-SWECIA ▷ FINAL CONFERENCE

SWEDISH RESEARCH PROGRAMME ON CLIMATE, IMPACTS AND ADAPTATION

FOCUS ON FORESTS AND FORESTRY, LAND USE AND ECONOMY

During the last eight years, Mistra-SWECIA has studied climate change, impacts and adaptation with a special focus on Swedish forests and forestry. A second research focus has been climate economy on global scale. In this final conference, the most important outcomes from the research will be presented and discussed, accompanied by thoughts about the future climate change adaptation landscape, and timely new research needs and challenges.
